- 8-10. soruları verilen metne göre cevaplayınız.
Mountain gorillas live on the mountains in Africa. They are usually dark grey. They are strong and powerful animals but they behave gently. Most people think they are dangerous, but in fact they are shy animals. They live in groups and they eat plants. They are endangered because people destroy the rainforests. Soon their habitat will be completely destroyed and they won't have a place to live. We should take strict precautions and ban hunting the gorillas.
8. Gorillas are becoming extinct because
A) they eat plants on the mountain.
