Diagram illustrating the subtraction process for 873 - 123. The result is shown as three dots, indicating a missing digit. An arrow points to the tens place of the minuend (7) with a red vertical line, indicating the borrowing process.

$$\begin{array}{r} 308 \\ - 123 \\ \hline \end{array}$$

A diagram illustrating a subtraction problem. On the left, a large black arrow points to the right, containing a red letter 'R'. To the right of the arrow is a 3x3 grid. The top row contains the numbers 4, 5, and 0. The middle row contains a minus sign, 3, and 0. A horizontal line is drawn under the middle row. The bottom row contains three dots, representing the result of the subtraction.

. . . .

← E

A diagram illustrating the subtraction process. A large red arrow points from the left towards the tens column of a subtraction problem. The arrow has a red letter 'T' inside it. The subtraction problem is shown in a grid:

	7	9	9
-	2	9	2
	.	.	.

Diagram illustrating the exchange step: A subtraction problem $876 - 104$ is shown on a grid. A red arrow labeled 'E' points to the right, indicating the exchange of a ten for ten ones.

← D

	9	8	7
-	2	5	6
	.	.	.

A diagram showing a subtraction problem on a grid. The problem is $862 - 441$. The result is shown as $\dots$. A red arrow labeled 'S' points to the grid.
