

1. Verilen geometrik cisimlerin benzer ve farklı özelliklerini yazalım.

Benzer Özellikler

• Hepsinin . . . köşesi var.

• Hepsinin . . . köşesi var.

• Hepsinin . . . yüzeyi var.

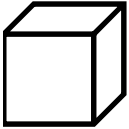

Farklı Özellikler

• bütün yüzeyleri
kare şeklindedir.

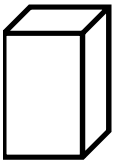

• Kare prizma . . . : tane
. bölge . . . : tane
. . . bölgeden oluşur.

• Dikdörtgen prizma . . . : tane
. bölgeden oluşur.

2. Verilen geometrik cisimlere benzeyen nesnelere örnekler yazalım.

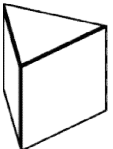

⇒ zar, sabır küpü,

⇒

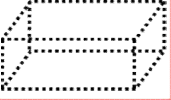

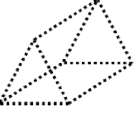

⇒

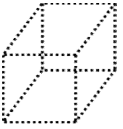

⇒

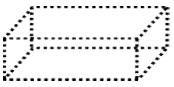

3. Aşağıda verilmiş olan tabloyu tamamlayalım.

	Cismin Adı	Köşe Sayısı	Ayrit Sayısı
			
			
			
			
			
			

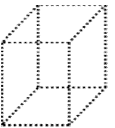

4. Yukarıdaki tabloya göre aşağıda verilen geometrik cisimlerin hangi yönüyle hangi geometrik cisme benzediğini yazalım.

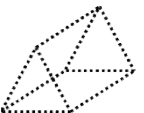

.....

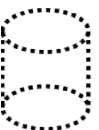

.....

.....

.....

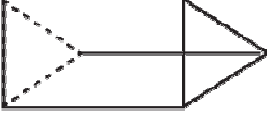

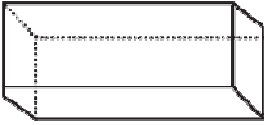

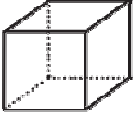

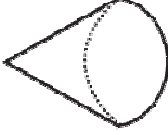

.....

.....

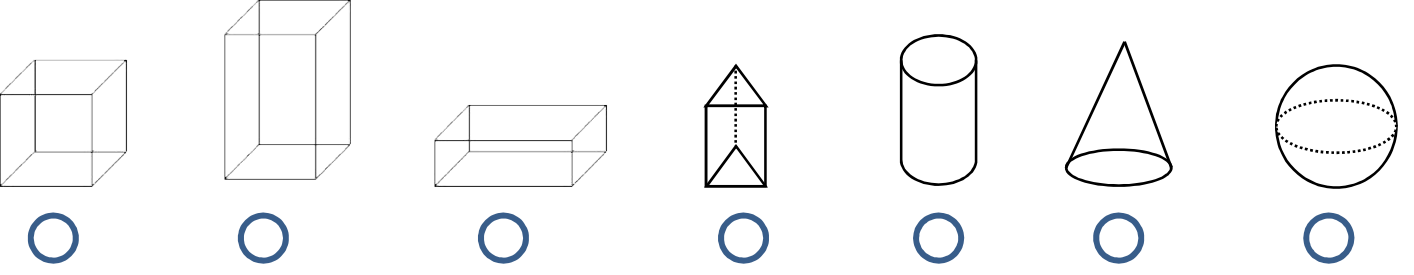

5. Aşağıda verilen olan tabloyu tamamlayalım.

	Karesel Bölge	Dikdörtgensel Bölge	Üçgensel Bölge	Daire
				
				
				
				
				
				

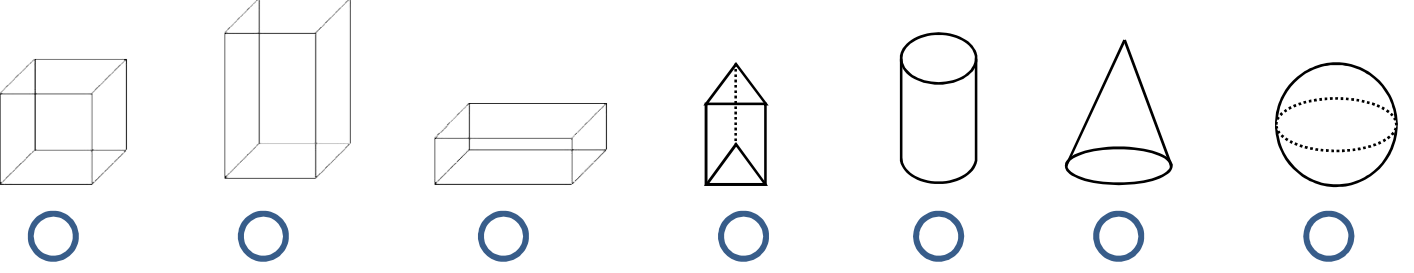

6. Yukarıdaki tabloya göre aşağıda verilen geometrik bölgelerin yer aldığı geometrik cisimleri yazalım.

- ❖ Karesel bölge
- ❖ Dikdörtgensel bölge
- ❖ Üçgensel bölge
- ❖ Dairesel bölge
- ❖ Eğri yüzey bölgesi.

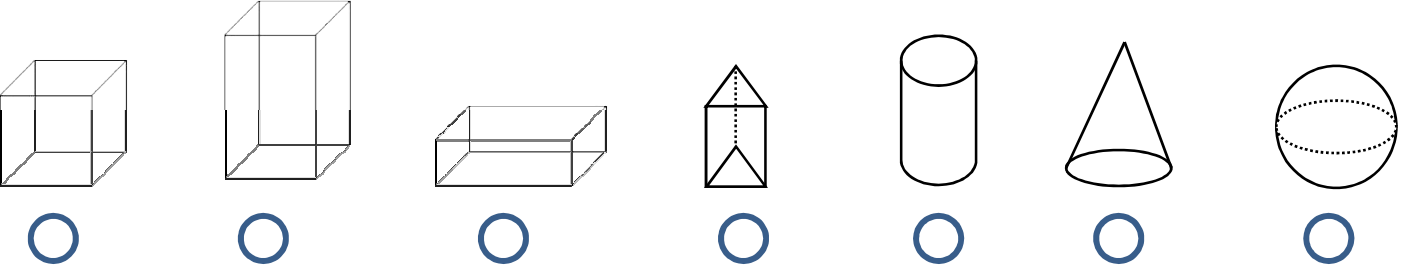

7. Karesel bölgesi olan geometrik cisimleri işaretleyelim.

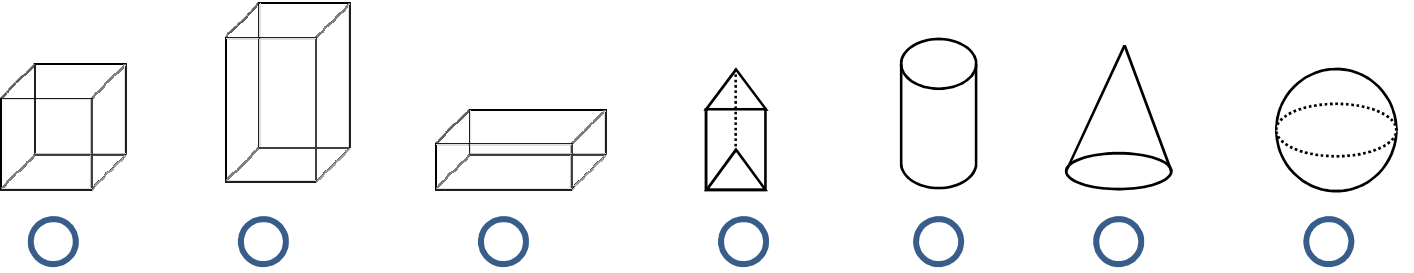

8. Dikdörtgensel bölgesi olan geometrik cisimleri işaretleyelim.

9. Dairesel bölgesi olan geometrik cisimleri işaretleyelim.

10. Tepe noktası olan geometrik cisimleri işaretleyelim.

11. Eğri yüzeyi olan geometrik cisimleri işaretleyelim.
