

(İşlem sırası önce birlikleri, sonra onlukları ve en sonra da yüzlükleri toplayınız. Eldeleri unutmayınız)

Diagram illustrating the addition of 268 and 145 using place value blocks (Yüzlük, Onluk, Birlik).

Initial numbers: 268 and 145.

Step 1: Addition of units (Birlik): 8 + 5 = 13. This results in 1 ten and 3 units.

Step 2: Addition of tens (Onluk): 6 + 4 = 10. This results in 1 hundred and 0 tens.

Step 3: Addition of hundreds (Yüzlük): 2 + 1 = 3. This results in 3 hundreds.

Final result: 413.

Aşağıda toplama işlemlerini yukarıdaki örneğe göre yüzlük, onluk ve birliklere ayırarak yapınız.

Yüzlük Onluk Birlik

368
+ 324

... ..
+

... ..
+

The diagram illustrates the decomposition of the addition $276 + 545$ into place value blocks. It shows the numbers 276 and 545 being broken down into hundreds (Yüzlük), tens (Onluk), and ones (Birlik) blocks. The blocks are then rearranged to show the addition process, with the final result being 821.

The diagram illustrates the decomposition of the addition $465 + 278$ into place value blocks. It shows the numbers 465 and 278 being broken down into hundreds (Yüzlük), tens (Onluk), and ones (Birlik) blocks. The blocks are then rearranged to show the addition process, with the final result being 743.

		Yüzlük	Onluk	Birlik	
478	→	...	...	...	→
